ALUMNI ADMISSION MENTOR PROGRAM (AAMP)

The graduates listed in this book have all volunteered to speak with students who are thinking about attending St. George's University School of Veterinary Medicine. All were once in the position of attempting to judge the quality of veterinary medical education outside of the United States in the face of a dearth of information on non-US veterinary medical schools.

These alumni attended St. George's University, graduated, or transferred to a US medical school, and are now practicing veterinarians. They know the uncertainties you are facing now, and can speak with you about the St. George's University educational experience, including the clinical program in the United States, United Kingdom, Ireland, Canada, and Australia; the faculty; life in Grenada; examinations; and the process of becoming licensed in a given state or country.

If you wish to speak with one of the graduates highlighted in this book, visit sgu.edu/avd or contact Joann Vastola at jvastola@sgu.edu, +1 (631) 665-8500 or 1 (800) 899-6337. We have graduates who may have volunteered since this directory was published, so be sure to search our complete listing at sgu.edu/avd.
