**SCHOOL OF MEDICINE**

# COMMENCEMENT

Saturday, June 4, 2022

Sunday, June 5, 2022

USTA Billie Jean King National Tennis Center  
Flushing, NY

## DOCTOR OF MEDICINE MISSION

St. George's University School of Medicine provides a diverse, multicultural, and international environment that empowers students to learn the medical knowledge, clinical skills, and professional behaviors to participate in healthcare delivery to people across the world

We congratulate each and every one of today's graduates; you will do us proud as ambassadors of St. George's University. We wish each of you success and fulfillment as you care for patients during your professional journey.

St. George's University Administration, Deans, Faculty, and Staff

“But nothing is more estimable than a physician who, having studied nature from his youth, knows the properties of the human body, the diseases which assail it, the remedies which will benefit it, exercises his art with caution, and pays equal attention to the rich and the poor.”

Voltaire

Benediction.....	The Reverend Monsignor John F. O'Grady
Recessional.....	Manhattan Brass Quintet

*For your safety and the consideration of others,  
we ask that you remain seated throughout the ceremony.*

## DISTINGUISHED SERVICE AWARD

### Shivayogi Bhusnurmath, MD, FRCPath

Dean of Academic Affairs, St. George's University

Shivayogi Bhusnurmath, MBBS, MD, FRCPath, is the dean of academic affairs and co-chair of the Department of Pathology within St. George's University School of Medicine. Over the past 25 years, Dr. Bhusnurmath has significantly contributed to furthering the curriculum within the Department of Pathology and overall within the School of Medicine.

He has been recognized by several international organizations including: the Royal College of Pathologists; the Group for Research in Pathology Education (GRPE); and the Association for Indian Pathologists in North America (AIPNA)—earning lifetime achievement awards for educational innovation and inspiring medical students and pathology residents over the last 45 years. He is a part of the executive committee of the International Academy of Pathology (IAP) and publishes its bulletin through SGU.

As dean of academic affairs for the past 15 years, he has chaired SGU's first comprehensive curriculum committee, developed its mission statement and outcome objectives, initiated the SGU learning objectives project, helped to develop the four-year MD program compendium, and kickstarted the curriculum mapping project. He was the main influence behind introducing B-Line software for clinical skills at SGU.

Dr. Bhusnurmath attributes the success in planning and execution of all educational modernizations to the joint efforts with his wife, Dr. Bharti Bhusnurmath, co-chair of the Department of Pathology and director of the Medical Pathology Diagnostic Laboratory within the School of Medicine.

They changed the way pathology courses were taught to incorporate clinical problem solving with active learning; using an audience response system (clickers) to encourage feedback during live lectures, using concept mapping, implementing self-directed learning in a clinicopathological format, and introducing small-group sessions in the curriculum for pathology lab activities. Importantly, they encouraged students who were viewing pathology images in teaching labs to think of the patients they represent.

Other accomplishments the duo made while at SGU included: the introduction of learning objectives related to professional behavior and communication skills; started the medical diagnostic pathology lab and the international clinical tutor teaching fellowship program, and helped to design the science building in 1999. Additionally, they started the Basic Science Foundation for Clinical Reasoning course (BSFCR) in 2010, introduced the India medical experience selective as well as a postgraduate certificate course in medical education for clinical tutors.

They have conducted over 120 continuing medical education workshops globally on pathology education and medical education and published over a dozen papers on pathology education.

## DISTINGUISHED SERVICE AWARD

Robert L. Jordan, PhD

Professor Emeritus, St. George's University

Dr. Robert Jordan has a long and storied career with St. George's University, spending the better part of 40 years with the University.

Known as "Dr. J," he has been an integral part of the development and maturation of the School of Medicine, serving in multiple roles and capacities over that span, including:

- Associate Professor of Anatomy, 1982–1992
- Associate Dean of Students, 1988–1990
- Director of Admissions and Financial Aid, 1990–1994
- Professor of Anatomy, Department of Anatomical Sciences, 1992–2021
- Professor and Chairman, Department of Anatomical Sciences, 1992–2008
- Associate Dean of Enrollment Planning for Admissions, 1994–2017
- Professor and Administrative Chair, Department of Anatomical Sciences, 2008–2017
- Senior Associate Dean of Basic Sciences—UK, SGU/NU program (formally the Keith B. Taylor Global Scholars Program), Northumbria University, 2010–2019
- Professor Emeritus of Anatomy, Department of Anatomical Sciences, 2021–Present

Dr. Jordan earned his Bachelor of Science in natural sciences and mathematics in 1965 from Florida Southern College, before beginning his doctoral work at the University of Florida. In 1966, he moved to the University of Cincinnati where he was awarded his PhD in anatomy and teratology in 1969. Following a one-year NIH Fellowship in environmental toxicology, Dr. Jordan joined the Medical College of Virginia (MCV) in 1970 as an assistant professor of anatomy.

Dr. Jordan's relationship with SGU began in early 1979 when he served as a visiting professor of anatomy from Medical College of Virginia. After several visits over the course of three years, Dr. Jordan was appointed to associate professor in the Department of Anatomical Sciences and moved to Grenada.

## DISTINGUISHED SERVICE AWARD

### Thomas J. Monahan

Consultant in International Education and  
Professional Regulation

Thomas J. Monahan is a consultant in international education and professional regulation for health professions, with over 50 years of experience in medical education and licensure. He holds graduate degrees from SUNY Albany and the University of Wisconsin in Madison. As part of his postgraduate training, he was a Fulbright Scholar at Osmania University in Hyderabad, India.

Mr. Monahan served as executive secretary of the New York State Board for Medicine and the State Board for Veterinary Medicine for several years, retiring in 2007. During his tenure with the State Board for Medicine, he was responsible for all aspects of medical licensure and developing and implementing the regulations and standards for the review of non-accredited and accredited programs of medical education located outside of the United States.

# MESSAGE FROM THE ALUMNI ASSOCIATION

Bruce Bonanno, MD '83

President, School of Medicine Alumni Association

The SGU School of Medicine Alumni Association (SOMAA) extends our heartfelt congratulations to all new graduates, and we welcome you to your Alumni Association!

On this day of celebration, think back to when you began your medical education. When I started over 40 years ago, the school itself was in its infancy. There were 80 students in my graduating class, and the facilities that you have now were a mere dream. But I did have some of the same questions as you probably did: How will I survive living in another country? Will I be able to handle the course load? Will I pass my standardized tests? Will I finish and get my degree? Your concerns went one step further as you had to navigate medical school during the COVID pandemic. But you dealt with all of those challenges as you pursued your desire to become a physician and that has led you here today.

Now, as you embark on the next step of your career in medicine comes a new set of questions: Will I get into a residency program? Most of you have answered this question, but you may still be wondering if you will be able to survive the long hours, the grueling schedule, and the sleepless nights that comes with residency training? Will you finish your residency? Will you truly be able to help people in their time of need?

The good news is you are well-prepared because of your experience at SGU. In addition, you will have a great support system with a network of over 19,000 alumni to lean on. There will always be someone you can turn to for help, to answer your questions, and to negate your doubts.

As you continue in your career, you'll hopefully find and become involved in many interests, such as your specialty society, teaching, administration, etc. My advice to you is that whatever you decide to do—have passion for it.

I encourage you to take an active part in our Alumni Association. We have several ways for you to get involved:

- Help us to raise the visibility of SGU by providing support to prospective students who can be encouraged by your story, and work with students/graduates as they seek to secure clerkships, internships, and residencies.
- Join us at our yearly CME conference in Grenada, held each March.
- Donate your time and skills in Grenada, making a significant difference to our host country and the people who live there. We have also started a “Medical Mission” project in countries around the world.
- Join us at one of our regional “get-togethers” for alumni.

As you continue on your path as a healthcare professional, remember how you got to where you are. Think about “giving back” at some point to SGU—and the people of Grenada—by being a part of the Alumni Association. I can tell you firsthand you will not regret it. Congratulations again and I look forward to meeting you soon.

## MESSAGE FROM ALUMNI AFFAIRS

Margaret A. Lambert

Vice President and Dean Emeritus for Alumni Affairs

I am honored and humbled to be given this opportunity to wish each of you an extraordinary life in the field of medicine. Each graduating class of SGU has its own distinguishing characteristics, but all SGU graduating classes share one major quality—strength. Each SGU class has also, in addition to the intensity of medical school itself, been challenged by some external force that has added an extra layer of grit, determination, and resolve to its already formidable achievement.

Your class had to navigate a clinical training program through the confusion and complexity of a pandemic. As the world held its breath and lived in fear, you were shut out of the center of the pandemic—the hospitals—during a time when it seemed you could learn the most. You had to live each day wondering how you would ever complete the steps necessary to graduate from medical school and, finally, begin your career within the healthcare system. And you had to do it while worrying about your family, your friends, and yourselves.

But you persevered, strong and well-prepared to take your place amongst the titans of medical care, most of you on the front lines. You are strong, wise, and tempered by resolution, patience, and respect for those in medicine, and in the healthcare field in general, who have led the world through this pandemic. You will always have each other—and those who came before and after you—to help you continue to learn and grow. Alumni Affairs is here to help you make the most of these valuable connections.

We wish you the most heartfelt congratulations on this glorious day!

# CANDIDATES FOR THE DEGREE OF DOCTOR OF MEDICINE

## 2020 GRADUATES

Yara Aboshady  
Houston, TX  
*Cum Laude*

Mercy Aladesua

## GRADUATION WITH DISTINCTION IN RESEARCH

St. George's University School of Medicine recognizes those students who conduct research during their medical studies that results in publication. Students who achieve this accomplishment will receive a designation of "Distinction in Research." SGU School of Medicine will honor these students with a letter of commendation, which is placed in their permanent file.

Samir Elias	Kristen Santana	Vanessa Zabala
Michael Fragner	Kaanan Shah	

## GRADUATION WITH DISTINCTION IN SCHOLARLY ACTIVITY

St. George's University School of Medicine recognizes those medical students who have conducted scholarly activity during medical school other than published research. Students who achieve this accomplishment will receive a designation of "Distinction in Scholarly Activity." SGU School of Medicine will honor these students with a letter of commendation, which is placed in their permanent file.

# IOTA EPSILON ALPHA MEDICAL HONOR SOCIETY MEMBERS

The Iota Epsilon Alpha (IEA) Honor Medical Society of St. George's University School of Medicine was founded on the principles that include academic excellence, integrity, leadership, compassion, and philanthropy. Although IEA is an academic society, its precepts are grounded in promoting humanitarianism and moral integrity as well as academic excellence.

On April 14, 1992, medical student Nicholas J. Andrews, together with student colleagues Derek Bigler, Vinita Seru, and Patrick M. Morgan, convened to establish IEA at St. George's University. Since then, the student members of IEA have not only increased, but have contributed significantly to the local habitants of Grenada, through their efforts in charity fundraising for various homes for the elderly, disabled, and orphaned children, and in the continued health education of Grenadians. Currently, IEA has extended membership to medical students in SGU's satellite campus at Northumbria University in Newcastle, UK. Beginning in 2006, IEA students were recognized at their medical graduation ceremonies for the maintenance of their academic excellence and in enhancing the lives of Grenadians. In this manner, IEA continues to be an integral part of St. George's University's corporate citizenship of Grenada.

# 2022 GRADUATES INDUCTED INTO THE GOLD HUMANISM HONOR SOCIETY

The Arnold P. Gold Foundation established the Gold Humanism Honor Society (GHHS) in 2002. This effort was born of a desire to foster and acknowledge humanism during medical education. Since its inception, the GHHS has been established at more than 160 medical schools, and awarded thousands of students with honors. The St. George's University chapter was established in 2004. The student body was invited to identify potential nominees based on humanistic criteria, including dependability, exemplary patient care, devotion to the community and the underprivileged, trustworthiness, listening skills, and behavior representative of the ideal St. George's University medical student.

# ACADEMIC OATH

I do solemnly vow, to that which I value and hold most dear:

That I will honor the Profession of Medicine, be just and generous to its members, and help sustain them in their service to humanity;

That just as I have learned from those who preceded me, so will I instruct those who follow me in the science and the art of medicine;

That I will recognize the limits of my knowledge and pursue lifelong learning to better care for the sick and to prevent illness;

That I will seek the counsel of others when they are more expert so as to fulfill my obligation to those who are entrusted to my care;

That I will not withdraw from my patients in their time of need;

That I will lead my life and practice my art with integrity and honor, using my power wisely;

That whatsoever I shall see or hear of the lives of my patients that is not fitting to be spoken, I will keep in confidence;

That into whatever house I shall enter, it shall be for the good of the sick;

That I will maintain this sacred trust, holding myself far aloof from wrong, from corrupting, from the tempting of others to vice;

That above all else I will serve the highest interests of my patients through the practice of my science and my art;

That I will be an advocate for patients in need and strive for justice in the care of the sick.

I now turn to my calling, promising to preserve its finest traditions, with the reward of a long experience in the joy of healing.

I make this vow freely and upon my honor.
