# Canadian Financial Support for the Doctor of Medicine Program Guidelines

The University understands that the Doctor of Medicine program requires substantial resources. We offer this worksheet as a personal budgeting resource. In the best interest of the student, a comprehensive financial plan is necessary in order to determine whether you have the resources necessary to complete your intended program of study. Please consider the costs associated with your intended program of study by reviewing the estimated Cost of Attendance (COA) sections below. Please note that students should not expect to support themselves through employment while attending the University.

### 2025-2026 ESTIMATED COST OF ATTENDANCE (COA)

The total cost of attendance (COA) is an **estimate** of what it costs a typical student to attend SGU School of Medicine. The COA is not the actual price you will pay, and your actual expenses may be different than the COA. This worksheet is provided to help you to plan out a personal budget for your program of study.

#### What's included in the COA?

The COA is made up of two different types of costs: direct and indirect.

- Direct costs are items that will appear on your university bill, such as tuition, fees, books, and housing (if you live on campus).
- **Indirect costs** will not appear on your bill but are estimated costs associated with going to SGU. These include items like transportation and personal expenses and should be factored in when you are planning the financial resources needed for your program of study.
